

Stock System Management

Total Control of Your Stock, Anywhere

**STRICTLY
CONFIDENTIAL**
Internal Branch Use Only

We're excited to announce the official launch of Smart Asset Solutions SMS - our new dynamic stock management platform that gives customers full visibility and control of their inventory, wherever it lives.

This innovative system can now be deployed directly into our customers' world:

- ✓ **Static stock control for depots and warehouses**
- ✓ **Van stock for mobile operations**
- ✓ **On-site containers and temporary work locations**

Whether a customer operates a single trades van or a full national network, Smart Asset Solutions helps them reduce shrinkage, improve accountability, and drive efficiency - all while delivering real-time insights and automation that replace outdated manual processes.

One Platform

Multiple Smart Services

Smart Asset Solutions brings together everything customers need to manage stock and assets effectively, including:

- ✓ **Complete inventory visibility**
- ✓ **Automated replenishment alerts**
- ✓ **Security and compliance monitoring**
- ✓ **Insightful reporting and usage analytics**

It's built to support customers in trade & construction, utilities & infrastructure, and field-service maintenance sectors, where downtime and lost stock directly impact productivity and costs

Introducing our NEW Demo Van!

To support customer engagement and showcase the tech in action, we now have a fully equipped demo van ready to hit the road.

This gives our teams a powerful tool to:

- ✓ **Demonstrate how the system operates in a real working environment**
- ✓ **Build excitement and confidence with prospective and existing customers**
- ✓ **Accelerate conversations and conversions**

We'll be sharing booking details shortly - so sales and customer teams can bring the experience directly to customers' sites.

What's Next?

This launch represents a major milestone in how we deliver value to customers. As we roll out Smart Asset Solutions SMS across the market, your support and advocacy will be key to its success. More information, promotional materials, and training resources will follow in the coming weeks.

Let's get behind this exciting innovation and show customers what's possible.
Smart Asset Solutions SMS - the future of stock is smart.
